Information for Contractors – Provision of Training during COVID19 Pandemic

Update 1 June 2022

Recommencing Public Offerings of Power Systems Safety Rules (PSSR) Training

Transgrid is recommencing offering PSSR training through public courses. We will have additional COVID controls in place at our training facilities when a training event is 'Public' – open to mixed groups of delivery partners and their sub-contractors. The additional controls are:

- Participants must meet all NSW Government guidelines regarding COVID.
- Participants must wear a mask in alignment with NSW guidelines at the time.
- Participants must not attend training if feeling unwell.

Options for Training

<u>Public -</u> Our preferred delivery method is Public – dates are set by Training Team and offered at defined Transgrid locations.

Booked through WSAT Roles portal.

<u>Private</u> - We are able to offer training in private sessions, this is typically at a date and location that the contractor requests and incurs travel costs. COVID controls must be confirmed and approved by Training Delivery Team Leader prior to approval.

Booked by completing <u>Training Request Form</u> found at <u>https://transgridcontractors.com.au/training-information/</u>.

<u>On Site -</u> The third alternative is for an approved site manager to deliver the site-component of blended training for limited PSSR categories. This is offered at the discretion of the Construction Manager and is typically offered in emergency situations or remote sites.

Booked by completing <u>Training Request Form</u> found at <u>https://transgridcontractors.com.au/training-information/</u>.

Please note the maximum class size for On-site training is 6.

Standard Controls in place during COVID19

Transgrid will implement the following controls during this time to reduce the risk of spreading COVID19 and apply appropriate social distancing practices.

- Participants must comply with all current COVID orders and requirements issued by the NSW Government.
- Participants must stay at home if unwell.

If you have any concerns or questions please contact training@transgrid.com.au
